Part IV - Carry-forward A	djustment	
The carry-forward adjust	ment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect	
cost rate approved for u	se in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates	

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the	
approved rate was based.	
Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for	
use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs,	
or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than	
the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.	
A. Indirect costs incurred in the current year (Part III, Line A8)	473,571.82
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	54,334.52
2. Carry-forward adjustment amount deferred from prior year(s), if any	(12,900.25)
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect	
cost rate (22.88%) times Part III, Line B19); zero if negative	0.00
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of	
(approved indirect cost rate (22.88%) times Part III, Line B19) or (the highest rate used to	
recover costs from any program (22.88%) times Part III, Line B19); zero if positive	(139,910.52)
D. Preliminary carry-forward adjustment (Line C1 or C2)	(139,910.52)
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which	
the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that	
the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more	
than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward	
adjustment is applied to the current year calculation:	11.66%
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward	
adjustment (\$-69955.26) is applied to the current year calculation and the remainder	
(\$-69955.26) is deferred to one or more future years:	14.10%
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward	
adjustment (\$-46636.84) is applied to the current year calculation and the remainder	
(\$-93273.68) is deferred to one or more future years:	14.92%
LEA request for Option 1, Option 2, or Option 3	
	1
F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if	
Option 2 or Option 3 is selected)	(139,910.52)
